**SAP® Business One:
Innovations and Enhancements to
Simplify Business Management**

SAP® Business
One

Quick Facts

Summary

Run better with the new release of the SAP® Business One application, designed exclusively for small businesses that want to fully integrate their business operations and grow profitably. Developed through strong co-innovation with SAP partners, the new release helps speed time to value, gain real-time insight, and increase ease of use and affordability.

Objectives

- Deliver a fully integrated solution tailored to small business needs
- Accommodate changing needs with on-premise and cloud deployment models and mobile access
- Integrate software with partner and other applications, such as the Ariba Network
- Facilitate application installation and upgrade

Solution

- Enhanced support for supply chain business processes for faster order processing and optimized stock movement
 - SAP Business One studio to simplify customization and integration with third-party tools
 - Centralized implementation framework for ease of installation and upgrade
 - Flexible reporting and analytics, including the exchange of reports and dashboards over the Web
-

Benefits

- Enhanced business insight with integrated reports and dashboards
 - Faster time to value with streamlined implementations and upgrades
 - Rapid integration enterprise-wide and with third parties
-
